

K-Love Christian radio station is enormously encouraging to me each day. I love to listen to the contemporary Christian message, to hear the news reported and to be informed about what is going on in the Christian community. I have many, many friends in my local community who would be very disheartened to have K-Love replaced by an LPFM broadcaster issuing other programming. I personally help finance K-Love with \$500/yr. Therefore, the station obviously means something to me and my family. My friends and myself in my community help form the "public interest" and having the station displaced would be a huge disservice to us. Everyone needs daily encouragement and to remove that when it presently exists is not looking out for the public interest in my view. Please consider the merits of my comments. Thank you.
